

It's better at Paron School of Art (than at my school) because I learn about new artists, I get to make friends and learn new techniques.

- Sage, 8

At Paron School of Art there are different materials, we have bigger spaces and there are more teachers. Making the mango and sticky rice was great because of how we blended the colours and patterns. It looked delicious.

- Kavish, 10

I loved when we had to draw without picking up the pen because the technique meant we couldn't stop collecting all the details!

- Klara, 12

Taking part in Paron's course allowed me to experience art in a completely new way. I discovered it's many different facets and, encouraged to step beyond my comfort zone even though I still didn't like straight lines. I understand better now how I personally connect with art and what it means to me.

- Vera, Adult Student

Paron School of Art,
Thonglor Soi 7,
Behind Panjit Tower

Hi there! Welcome to our studio.

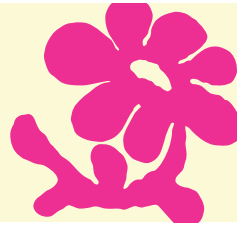

In a screen-dominated world, we can easily lose touch with our innate ability to innovate. Impactful art experiences enlighten us, forging new pathways in our thinking. To lead balance, fulfilling lives, our children today must access their inner creators.

Paron School of Art bridges this gap, empowering the next generation to unlock their full creative potential.

Programmes

Your next art journey begins here. Our 5 unique programmes this year offer distinct adventures in visual arts - for all ages and skill levels.

We Earthlings

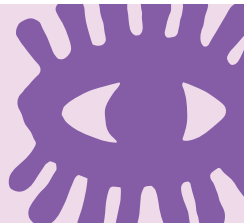

Shape of Water

Sunny Side Up

Art Herstory

Fabulous Beasts

We Earthlings

Nature's fragile wonders requires us to unite as one voice to recognise and sustain it. Create the landscapes and ecosystems to inspire deeper environmental awareness.

Dive into coral cities to witness how underwater reefs brace for warming oceans.

Decode the architecture of seeds to reveal the hidden blueprints of life's potential.

Watch a cosmic sunrise to experience dawn completely from the sun's own perspective.

Create an Earthling Manifesto to declare your personal pacts for protecting the planet.

Shape of Water

Our mindfulness art programme embraces the soft, unrestricted movement of water. Create an abstract sanctuary that mirrors inner landscape.

Explore water as a metaphor for the mind, focusing on its turbulent, still, and flowing states.

Combine Japanese printing techniques and cyanotypes letting bleeding ink guide fluid optical illusions.

Apply salt-crystallization techniques to wet paint, watch ice-like patterns form.

Combine everyday materials like pasta with tie-dye to create textured, stormy abstract paintings.

Sunny Side Up

Translate stunning ingredients and plated dishes into artwork to uncover world cultures. Celebrate artful and vibrant food forms as a reflection of our radiant optimism.

Construct a multi-layer craft sculpture of Italian pizza involving woodchips, foam and yarn structures.

Sew soft fabric sculptures of a British fry-up inspired by iconic Pop Art masters.

Assemble kinetic paper collages of Japanese ramen to capture dynamic, Futurist energy.

Build a collaborative Cubist banquet table installation using fractured, multi-perspective food shapes.

Art Herstory

Rewrite traditional art history and discover incredible female pioneers, transforming classical masterpieces through a radical, empowering artistic lens.

Transform Mona Lisa into bold stencil graffiti on large canvas boards using vibrant spray paint.

Reframe Yayoi's hysteria into an artistic vision. Build an immersive polka-dot installations using vibrant acrylics and UV reactive pigments.

Honour Frida Kahlo. Blend oil pastels on toned paper to create confident self-portraits celebrating raw, indigenous identity.

Picasso's muses fight back. Sew fractured Cubist muses into a collaborative multimedia collage.

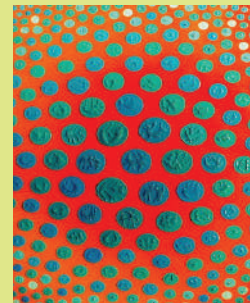

Fabulous Beasts

Paint, sculpt, and draw the spectacle of nature's untamed kingdom, immersing yourself in the rich tapestry, furs, and feathers of diverse animal life.

Reimagine a zebra's stark natural stripes as the perfect host for psychedelic artistic creations.

Analyze peacock wingspan or lion manes to unlock highly geometrical and graphic animal artworks.

Study local artisanal craft objects to beautifully depict the animals featuring in rural Thai life.

Blend organic tree scales, mythology, and mechanical jitters to build your own beastly creations.

Workshops

Trials

Sample the magic of our studio and get a taste of what you can expect from a longer programme

Get in touch for the next trial workshop date

850 THB for new students

Private

Master new skills or recreate favourite pieces. Unlock your artistic potential with 1-on-1 expert guidance

Select from our past workshops or bring a reference artwork

2,400 THB for a 90min session
